MPD to MDP cable

Technical sheet

With Aiino's male Mini DisplayPort to male Mini DisplayPort you can connect your Mini DisplayPort equipped Apple computer to an iMac 27' and use it as a bigger monitor, while its audio transfer is supported*.
After connecting the two computers with this cable and switching them on, it is sufficient to press cmd+F2 on the iMac to switch between the iMac monitor and the Mini DisplayPort input monitor.
This adapter fits for the new Thunderbolt port, which is implemented on all new Apple computers.

TECHNICAL SPECIFICATIONS:
standard: Mini DisplayPort to Mini DisplayPort
compatible with Thunderbolt port
audio support*
cable length: 2m

*if supported by the connected Apple device
